An original scheme in a context out of the ordinary.

The interiors are bordered off by backdrop-walls which create perspectives that are new each time in a fluid and rhythmic sequence where the combinations of shapes and materials map out a new idea of

elegance.

The kitchen puts over a sense of lightness thanks to the open end units and the transparent glass support of the snack counter and white gloss Finish.

A careful study of the details was reserved for the kitchen with top in black Quartz Stone and sink area formed by two design modules in stainless steel with Γ a i S e d outer edge. .

The doors, top and back of the kitchen have a matte finish, silky to the touch, which adds luxury to the space together with other important features such as the flat дгооче.

The kitchen with doors in solid wood with matte white lacquer finish has a classic feel perfectly combined with the more contemporary details, such as the top and back in black texture and the appliances and handles in satin finish

steel.

Simple, in white wood with visible grain, This kitchen is young and ultra-practical. The things used every day are left on display.

After all, we start eating with our eyes,

don't we?

Walk In Closets!!

In the interiors, what is wonderful is the atmosphere that the light gives to the Space.

Space become architectural space thanks to its limits, its surfaces, its materials and the way in which these are combined. All that creates a certain kind o f lmage and

atmosphere. "

Different materials combined with wood, such as bronze profile and dark mirror finish, are used in a contrast to map out the $\mathbf{S}\,\mathbf{P}\,\mathbf{a}\,\mathbf{C}\,\mathbf{e}$.

This tendency towards integration reflects a new idea of combination which takes shape in effectively multipurpose furniture and " bridge elements".
